FOR IMMEDIATE RELEASE

Prototype Prime Hosting Coding School Information Session

PEACHTREE CORNERS, GA, Nov. 6, 2018 – In January 2019, [Prototype Prime](#), the city's startup incubator, will begin hosting a 24-week coding boot camp taught by Georgia Tech. Those interested in learning more about the classes will have an opportunity during an upcoming information session.

The information session will be held on Tuesday, Nov. 13, from 12 – 1:30 p.m. at Prototype Prime, located at 147 Technology Parkway. Both business owners and individuals, who would like more details about the coding boot camp, are welcome.

Those attending will be able to meet representatives from Georgia Tech to learn about the coding boot camp. Business owners will also learn about grants offered through an Atlanta Regional Commission program that provides businesses up to 90 percent of the cost of the coding school.

The classes are offered through [Georgia Tech Professional Education](#) (GTPE), an academic division of Georgia Tech. Students will learn specialized skills through a fast-paced, immersive curriculum and acquire skills to become proficient in front-end and back-end technologies. Students will receive hands-on training to master the hard and soft skills needed for web development, data science and analytics, and will finish the course with a wide set of technical skills and a portfolio of projects. Classes begin Jan. 28, 2019.

The [Atlanta Regional Commission](#) program provides businesses with financial assistance for on-the-job training, and incumbent worker training to assist in training workers in the Atlanta area. The ARC provides reimbursements to employers to help compensate for the costs associated with skills upgrade training and loss of production for new hires.

Attendees are requested to [RSVP to ensure a seat for this information session](#). Please feel free to bring your lunch to this mid-day event. For more information, visit [Georgia Tech's coding boot camp web page](#) or call 404-328-7187.

###

[About Prototype Prime](#)

Located in Peachtree Corners, Prototype Prime is an early stage technology incubator located in Peachtree Corners that focuses on hardware and software startups. The 26,000 square-foot facility features a design & development lab, autonomous vehicle test track, flexible lease office space, classrooms, and a special events facility.

[About Georgia Tech Professional Education](#)

Georgia Tech Professional Education, an academic division of the Georgia Institute of Technology, offers professional development courses, certificate programs, and professional master's degrees in a variety of formats to meet the needs of working professionals and industry partners in STEM and business fields worldwide. We educate over 36,000 individual learners representing more than 2,600 companies annually.

[About City of Peachtree Corners](#)

Situated in Gwinnett County, one of the fastest growing counties in Georgia, Peachtree Corners is conveniently located to major highways, I-85, I-285 and GA 400 and just 30 minutes northeast of Atlanta. Founded on July 1, 2012, it is the largest and newest city in the county. Peachtree Corners is home to over 40,000 residents and is over 17 square miles in size. Located in the southwest corner of the county, seven miles of the Chattahoochee River define its western border.
