COMMERCIAL FEE SCHEDULE

The total cost for a Commercial Building Permit Application is composed of the following parts:

- Plan Review fee
- Building Permit fee
- Administrative fee of \$50.00 for either a Certificate of Occupancy (CO) or Certificate of Completion (CC)

The Building Permit fee is calculated using the applicable table provided below. The Plan Review fee is a separate charge that is equal to 50% of the calculated Building Permit fee. At time of application, the Plan Review fee will be collected as a deposit for the services provided.

Below is a brief example of how to determine the total cost of a Commercial Building Permit.

EXAMPLE: Assuming a Building Permit fee of \$1,000.00 the Plan Review fee would be exactly half, or in this case \$500.00. In addition to the Building Permit and Plan Review fees the total cost for this hypothetical project would include the \$50.00 administrative fee for the Certificate of Occupancy (CO) or Certificate of Completion (CC), as applicable to the project scope.

The total cost for our permit would be \$1,550.00, which includes the Plan Review fee (\$500.00), Building Permit fee (\$1,000.00) and the additional administrative cost of \$50.00.

1. Determine the Occupancy Type per the International Building Code Chapter 3;
2. Multiple area by the cost per square foot;
3. The number based on the area times the cost per square foot equals the Building Permit Fee. Using the above information you can determine the Plan Review Fee and Administrative Fee for the CO / CC to arrive at the total commercial permit cost.

Note: The minimum Building Permit fee is \$50.00 and the minimum Plan Review fee is \$50.00.
