FOR IMMEDIATE RELEASE

Self-Driving Shuttle Debuts in Peachtree Corners *First Georgia city to test driverless vehicle on public street*

PEACHTREE CORNERS, GA., Oct 4, 2019 – Olli, a 3D printed, self-driving shuttle developed by Local Motors, made its debut Tuesday in the city of Peachtree Corners at Technology Park Atlanta, a 500-acre existing technology park that is home to over 7,000 employees. As part of a three-month pilot project, the Olli shuttle is available for use by the general public.

The Peachtree Corners location is the first in the nation where the electrically powered Olli shuttle will be tested in this level of real-world conditions as it operates alongside the motoring public on a 1.5-mile public street.

“We are delighted to be able to showcase Local Motors’ driverless shuttles and to bring this new technology to Peachtree Corners,” said Mayor Mike Mason. “It’s a great opportunity for our city to look beyond traditional transportation and seek innovative ways to improve mobility and make journeys better and accessible to all. We invite our citizens and the business community to see and experience this exciting technology.”

While Olli operates over the coming months, data will be gathered via rider surveys to understand the public’s sentiment regarding self-driving shuttles, the potential for congestion relief, better mobility, and the reduction of single occupant vehicle use.

“Local Motors’ decision to deploy Olli shuttles along the Curiosity Lab test track confirms how significant the city’s living laboratory has already become as a step in the evolution of advancing intelligent mobility,” said Peachtree Corners’ city manager, Brian Johnson. “With Curiosity Lab here at our doorstep, our city is well positioned to be a leader in the growth of intelligent mobility research.”

Two Olli shuttles will operate weekdays on the specially designed test track on Technology Parkway from Oct. 1, to Dec. 31, 2019. Those interested in riding Olli are encouraged to park at the Peachtree Corners City Hall, 310 Technology Parkway in Peachtree Corners and walk across the street to the Olli stop located on the corner of Westech Drive and Technology Parkway.

“Curiosity Lab at Peachtree Corners is a perfect location for Local Motors to demonstrate and further improve Olli’s technology,” said Nick Cole, Senior VP of Sales for Local Motors. “We are excited to offer residents, workers, and those visiting the city a driverless vehicle experience. Olli demonstrates the future of autonomous vehicle technology, and Local Motors is pleased to collaborate with Peachtree Corners to further the development of intelligent mobility technology.”

Please register at www.RideOlli.com for a free ride and sign a waiver. A QR code is provided to riders via email which is scanned when riders board. Riders will be asked to take an online survey after riding Olli.

More information is available at localmotors.com and PeachtreeCornersGA.gov/ride-olli.

About Curiosity Lat at Peachtree Corners

Curiosity Lab is a 5G enabled autonomous vehicle and smart city living laboratory located in Peachtree Corners, Georgia, a northern suburb of Atlanta. The centerpiece of the lab is a 1.5-mile test and demo track which provides a real-world environment to explore emerging technologies. Additional infrastructure includes a network operations center, smart poles, DSRC units, dedicated fiber and a 25,000 square-foot tech incubator. Additional information is available at www.curiositylabptc.com

About Local Motors

[Local Motors by LM](#) Industries Group Inc. is a ground mobility company focused on shaping the future for the better. Founded in 2007 with a belief in open collaboration and co-creation, Local Motors began low volume vehicle manufacturing of open-source designs using multiple micro-factories. Since inception, Local Motors has debuted no less than three world firsts; the world’s first co-created vehicle, the world’s first 3D-printed car and the world’s first co-created, self-driving, electric vehicle, Olli. We believe that Olli is the answer to a sustainable, accessible transportation solution for all.

About the City of Peachtree Corners

Situated in Gwinnett County, one of the fastest growing counties in Georgia, [Peachtree Corners](#) is conveniently located to major highways, I-85, I-285 and GA 400 and just 30 minutes northeast of Atlanta’s international airport. Founded July 1, 2012, it is home to over 43,000 residents and 2,500 businesses. The city is 17 square miles in size and located in the southwest corner of the county. Seven miles of the Chattahoochee River define its western border.
